

**TOWN OF STOUGHTON  
HYDRANT FLUSHING**

The Town of Stoughton Water Department will be conducting a TOWN WIDE water main flushing program starting on Monday April 29, 2024 and continuing through June 7, 2024. This will be going on during the work week only. The times will vary depending on the location. The majority of the work will be done in the evening between the hours of 9:00 p.m. and 3:00 a.m. and also during the day between 7:30 a.m. – 3:30 p.m.

This activity will cause discolored water in varying degrees in sections of the town. Persons who experience water discoloration should flush their systems by opening the cold water faucet for a few minutes and then waiting for about an hour. If the water is still not clear, they should repeat the flushing procedure.

The Water Department regrets that it cannot be responsible for any damages incurred as a result of the flushing activity, which is a necessary and normal maintenance function of the Water Department.

Stoughton Water Department  
Philip A. McNulty, P.E., Superintendent
